MOUNT KISCO, NEW YORK 10549  
914-241-6000

Dr. Joel Adelberg  
Superintendent of Schools

Dr. Louis Corsaro  
Medical Director

---

## **BEDFORD CENTRAL SCHOOL DISTRICT'S PROTOCOL for HEAD LICE**

1. Students suspected of having lice will be checked by the School Nurse.
2. If any live lice are found, the parent/guardian of the student will be called to pick up their child from school. The student will remain in the Health Office until the parent/guardian arrives. The parent/guardian will be given the District's return to school protocol.
3. Parents and Guardians should notify the School Nurse of any cases of lice found at home.
4. The School Nurse will check other students as necessary.
5. After the student has been treated for lice, they will be re-checked by the School Nurse. If no lice are found the student will return to their classroom.
6. After treatment if live lice are found the student will be sent home for re treatment.
7. The School Nurse will check the student every time after treatment for lice is done to be sure treatment has been successful.

The Bedford Central School District does not have a "no nit policy".
