

January 18, 2022

Dear BCSD Community,

I am writing to share the number of positive cases that were reported to our district today. All cases are reported on the New York State Data Dashboard.

FLHS - 15 students

FLMS - 4 students

BHES - 1 student

BVES - 3 students

PRES - 1 student

WPES - 3 students

All of those impacted have already been notified with all necessary dates and information and may receive additional contact from NYS contact tracers.

Although not required to quarantine, students and staff who were in close proximity to an individual who tested positive may receive a “wellness” call from NYS contact tracers.

When school is in session, if a student tests positive, please reach out to your school principal or school nurse as soon as you receive the results. If this happens during the school day, please call. If it's outside of school hours, email is best. The sooner we get the information, the more quickly we can work with the DOH to determine those in close contact.

For the latest guidelines on isolation and quarantine visit the [New York State Department of Health website](#) and refer to my January 12 [letter to the community](#).

For information on COVID-19 Vaccines available in Mount Kisco, please click [here](#) and see the attached [screener and consent form](#).

Thank you for your continued support.

Sincerely,

Dr. Joel Adelberg

Joel Adelberg, Ed. D
Superintendent of Schools
