

## Elementary Consulting Teacher (ECT)

- Supports teachers in implementing District curriculum initiatives and Common Core Learning State Standards.
- Provides in-service training and support for staff on best practices in all academic areas.
- Provides learning support within the classroom by collaborating with the classroom teacher and co-teaching various lessons. The ECT may also see students in small, flexible groups as needed.
- Advises staff on appropriate materials to use with students.
- Coordinates distribution of materials and books, ensuring that teachers have what they need to successfully work with their students.
- Coordinates and supervises all elementary testing for the school year, including New York State tests.
- Works directly with the Assistant Superintendent for Curriculum and Instruction to coordinate, review and strengthen the elementary educational program.
- Assists principal with administrative responsibilities and assumes these responsibilities when the principal is not in the building.
