School District Goals 2016-17

1. ***Strategic Planning***: Convene a group of representative stakeholders to articulate the current values/beliefs, mission, vision and broad goal areas of the district.
2. Evaluate, refine and improve the ***budget development process*** to result in a 2017-18 budget which balances school community needs and constraints.
3. Develop a ***comprehensive communications plan*** which includes forums for public discourse between the Board of Education, administration and community members.
4. Resolve ***negotiations***.
5. Implement the District ***Curriculum Review Cycle*** and continue key ***program initiatives***.
6. Evaluate, refine, and improve ***BCSD Policies***.
7. Create a detailed ***special education action plan*** to refine and improve services to students, focusing on developing a shared understanding and theory of action for the term "inclusion", implementing refined processes to ensure understanding and implementation of accommodations set forth in IEPs and 504s, and seeking additional parental input regarding special education programming and services.
8. Create and implement a new ***Board of Education and subcommittee meeting cycle*** to refine and improve the functioning of community advisory committees, Board subcommittees, and the Board as a whole.
9. Design a consistent process for the ***filling of leadership positions***.
10. Continue the work of the ***Space and Enrollment Community Advisory Committee***, including engaging in more in-depth study and the evaluation of the previous recommendation to consider the closing of an elementary school and other options for efficiencies and cost savings at all levels.
