7th Grade Health and Dental Examination Requirements

August 2019

Dear Parents/Guardians,

New York State law requires a health examination for all middle school students **entering the school district for the first time and when entering 7th grade**. The examination must be completed by a New York State licensed physician, physician assistant or nurse practitioner.

A dental certificate which states your child has been seen by a dentist or dental hygienist is also asked for at the same time

- A copy of the health examination must be provided to the school within 30 days from when your child first starts school.
- If your child has an appointment for an exam during this school year that is after the first 30 days of school, please notify the Health Office with the date.
- Below are the links for the physical and dental exam forms to give to your health care provider. They are also available on our district web site

- Communication between private and school health staff is important for safe and effective care at school. Your healthcare provider may not share health information with school health staff without your signed permission. Therefore, please talk to your provider about signing their consent form, for the school, at the time of your child's appointment.

We suggest you make copies of the completed forms for your own records before sending them to the school health office. Forms may also be faxed to the number below.

Sincerely,

Barbara Ingraldi, RN, MSN
