

Dear BCSD Community,

In our continued efforts to improve our communications, we are planning to redesign our website to make it both clearer and easier to navigate. Before we embark on this important work in collaboration with both BCSD Administration and our Technology Department, we need **your** help.

We have created a [short survey](#) that will assist us in keeping your user experience a top priority. Please fill it out by Friday, December 11 to ensure your opinions are heard.

Thank you in advance for helping us make sure the information you find most important is right at your fingertips.

Sincerely,
The BCSD Communications Committee
